TCEQ Environmental Crimes Unit
Case Screening Summary

Referral Date: 1/9/26	Adopted Date: NA	Investigator: Randall Hodo
Case Name: Walmart		
RN Number: RN102252046	CN Number: CN600257125	
Company Name: Walmart 2311 S Jefferson, Ave, MtPleasant, TX 75455		
Individuals: Unknown		
Intentional Knowing _____	Harm or Potential Harm: _____ (to the Environment or Human Health)	Harm or Potential Harm: __X__ (to Program Integrity)
Parallel Proceedings Issues: __NA__ (If yes, explain)		
Potential Violation: 25 TAC 296.191(a) – Public building owner responsibilities		
Brief Summary: On 1/9/26, I received an inquiry about management of Asbestos Containing Material (ACM) at Walmart in Mt Pleasant relating to a DSHS Notice of Deficiency/Violation dated 7/24/25. The timeline indicates renovation/demolition began prior to an asbestos survey and demolition notification. DSHS conducted an inspection on 7/1/25, required Walmart to perform a survey, and provide required notification. The notification filed on the same day listed "No Suspected Material." ERI Consulting conducted a limited inspection on 7/10/25 and identified asbestos containing mastic on HVAC flashing. Disturbance is unknown.		
Recommendation of Investigator: ACM management falls under EPA and DSHS. Refer to the EPA		
Lead Agency: TCEQ	Time Spent Screening: 2
