KR

Mr. Moring,

Per Judge Parish:

Please let Mr. Moring know that the only thing I will be doing is allowing him to offer his supporting exhibits, subject to the city's objections.
I will fully review the attachment when I get back home from the judicial conference.
Thanks!
LP

Good afternoon,

I am the pro se petitioner in Cause No. 44437. Judge Lauren Parish orally continued the mandamus hearing to September 18, 2026. Following her instructions, I have prepared separately labeled Exhibits A through AD and a condensed hearing selection. I sent counsel a link to review copies and requested an exhibit conference. I have also prepared a draft motion for limited discovery and preservation relating to the pending plea to the jurisdiction.

Would you please confirm the following:

1. **Hearing time and scope.** Please confirm the hearing time and location and whether Respondent's plea to the jurisdiction will also be taken up on September 18.

2. **Exhibit filing and copies.** The condensed selection has 131 pages, including navigation pages, and the complete set contains 220 exhibit pages. Please advise whether any exhibit PDFs should be filed and whether Judge Parish wants the condensed selection, the complete set, or only the exhibit list in advance. What delivery method, deadline and number of paper copies should I use? I plan to use A through AD on the Plaintiff Exhibit stickers.

Two pages of Exhibit P are reserved from public filing pending a specific privilege/use ruling but remain in the complete set designated for service on counsel. Any advance delivery would need to account for that reservation. If the Court requests those pages for private review, please advise the appropriate procedure.

3. **Proposed order.** How should I submit the proposed discovery order, in what format, and is electronic filing also required? The September 2 return notification for my earlier proposed order stated that it had been emailed to Judge Parish. I would appreciate instructions for submitting this new proposed order.

4. **Discovery motion.** What is the procedure for requesting consideration of the limited discovery and preservation motion before September 18, or at that setting if it cannot be considered earlier? Please identify any hearing or submission notice I should serve.

I plan to file and serve the revised exhibit notice and serve the complete exhibit set promptly while seeking these logistical directions. Please advise of any applicable instruction or deadline affecting that plan. I am not attaching exhibits to this inquiry.

Respectfully,

Kyle Douglas Moring
Petitioner, Pro Se
