Automated Operator

02:39

Seven days a week.

Automated Operator

02:41

Please leave a message after the tone. After you are done recording, you may press pound for further options.

Kyle Moring

02:49

Hi there. My name is Kyle Douglas Moring. I'm the designated representative for current employees at Walmart Store 131 in Mount Pleasant, Texas.

Kyle Moring

02:59

The associated inspection number that's associated with this site is 1845692.015.

Kyle Moring

03:13

I'm just calling to report serious and potentially imminent danger conditions observed today while I was at the store.

Kyle Moring

03:21

These are things that have been happening consistently, but it seems to have escalated.

Kyle Moring
03:28
In the dairy department, the case cooler R24, there's an active leak with a saturated absorbent sock tucked underneath the case right next to an electrical receptacle outlet with a red indicator light.

Kyle Moring
03:42
And the public aisle was wet with no type of cones or barriers in place whatsoever.

Kyle Moring
03:48
In the tire and lube shop in TLE.

Kyle Moring
03:51
There's flammable liquid cans that are inside an enclosed trailer

Kyle Moring
03:55
right outside of TLE that is being remodeled.

Kyle Moring
03:59
The generator was running at that time.

Kyle Moring
04:01
There's cords routed on the ground.

Kyle Moring
04:03
The separation from the live service bays is only just a plastic sheet

Kyle Moring
04:07
with a wood partition.

Kyle Moring
04:09
The barricading from the actual remodel section is just light fencing

Kyle Moring
04:13
in an active drive lane.

Kyle Moring
04:15
And egress is narrowed in places and the bay right next to adjacent to it,

Kyle Moring
04:21
the engines are operating in the cars that employees are servicing.

Kyle Moring
04:26
There's also a red can next to the cars being serviced by the employees that um...

Kyle Moring
04:38
It says that it's for solvent.

Kyle Moring
04:42
I guess it's for a solvent waste container and flammable material.

Kyle Moring
04:48
You know icon is on it.

Kyle Moring
04:50
It says that it's like the flammable waste containers.

Kyle Moring
04:54
Typically, I know it must be placed in a designated flammable storage area, not next to cars being serviced that actually have ignition.

Kyle Moring
05:03
It's like an ignition source zone.

Kyle Moring
05:05
Um, and then the final thing I wanted to report today, um, was in the Garden Center.

Kyle Moring
05:12
An employee reported to me, uh, the entrance doorframe to the garden center doors, uh,

Kyle Moring
05:18

is being held up by clamps attached to the metal, uh, shelving unit in front of it.

Kyle Moring
05:24
They said it's been like that way for some time.

Kyle Moring
05:27
Due to emails just bouncing with auto responses due to the funding lapse,

Kyle Moring
05:31
um I am calling in to request an immediate field verification and interim controls put in place.

Kyle Moring
05:36
I'm going to send the binders and photo files right now to the contacts in OSHA that I have been sending my evidence binders to.

Kyle Moring
05:47
If you need anything else from me please.

Automated Operator
05:49
You have reached the maximum message length.

Automated Operator
05:51
To listen to your message, press 1.

Automated Operator
05:54
To erase and re-record your message, press 2.

Automated Operator
05:57
To confirm and save your message, press 3.

Automated Operator
06:02
Please leave a message after the tone.

Automated Operator
06:04
After you are done recording, you may press pound for further options.

Automated Operator
06:09
Beep.

Kyle Moring
06:10
Hi there, this is Kyle Douglas Mooring.

Kyle Moring
06:12
I'm the designated representative for current employees at Walmart Store 131 in Mount Pleasant, Texas.

Kyle Moring
06:17
The inspection number associated with this is 1845692.015.

Kyle Moring
06:24
I'm reporting serious and potentially imminent dangerous conditions observed today.

Kyle Moring
06:29
In the dairy department, the cooler case on the sales floor R24,

Kyle Moring
06:33
there's an active leak with a saturated absorbent sock tucked under the case next to an electrical receptacle with a red light.

Kyle Moring
06:38
on it and the public aisle was wet, no signs or cones put in place.

Kyle Moring
06:45
This was at the same time when I observed this, management was walking the sales floor and looking underneath the coolers.

Kyle Moring
06:51
In TLE, the tire shop, there's flammable liquid cans observed inside in a closed trailer while a generator is running immediately outside with cords routed on the ground.

Kyle Moring
07:02
Separation from live service bays from the remodel construction going on in the adjacent bay is

a plastic sheet and wood partition.

Kyle Moring
07:09
The barricading is light fencing in an active drive lane.

Kyle Moring
07:12
The floors look oily and wet.

Kyle Moring
07:14
The egress is narrowed in places.

Kyle Moring
07:16
Engines are operating without visible capture.

Kyle Moring
07:19
There's even a red container that has like flammable, you know, icon on it for solvent waste rags right next to vehicles being serviced by employees like in an ignition source zone.

Kyle Moring
07:33
In the garden center, the entrance door frame is clamped into place.

Kyle Moring
07:37
It's being held up by a clamp.

Kyle Moring
07:39
attached to the metal shelf unit in front of it.

Kyle Moring
07:42
Employees reported this to me and said it's been this way for some time.

Kyle Moring
07:45
Emails are bouncing with auto responses due to the funding lapse.

Kyle Moring
07:48
I'm calling to request an immediate field verification and interim controls.

Kyle Moring
07:52
I'm going to send the binders and the documented photos to my OSHA contacts that I've been sending them to previously.

Kyle Moring
08:00
If you need to call me back, please do. My number is [redacted]

Kyle Moring
08:07
Again, this is Kyle Douglas Moring with the designated representative for current 131 employees.

Kyle Moring
08:16
Thank you.

Automated Operator
08:19
To listen to your message press one to erase and re-record your message

Automated Operator
08:25
press two to confirm and save your message press three

Automated Operator
08:30
thank you for your message goodbye
