Investigation Comments:

INTRODUCTION

An investigation of the City of Mount Pleasant's water supply contract (WSC 269) with Titus County Fresh Water Supply District was conducted on March 18, 2025, to determine compliance with applicable water rights regulations.

This investigation is considered a water rights reconnaissance investigation. This investigation was conducted by Ms. Amy Camp of the TCEQ Region 5 Office. Representing the City of Mount Pleasant during the investigation was Mr. Paul Reyes (Water Plant Foreman).

No violations are being alleged as a result of this investigation.

GENERAL FACILITY AND PROCESS INFORMATION

The City of Mount Pleasant has a Water Supply Contract No. 269 with Titus County Fresh Water Supply District (TCFWSD). TCFWSD is the owner of Certificate of Adjudication 4564. The diversion point for ADJ 4564 is located on Lake Bob Sandlin in Segment No. 0408 of the Cypress Creek Basin. ADJ 4564 authorizes the owner to divert and use 48,500 acre-feet of water per year from Lake Bob Sandlin for mining, agricultural, municipal, domestic, industrial, and recreational use in Camp, Franklin, and Titus Counties.

WSC 269 recognizes the agreement between the City of Mount Pleasant and TCFWSD which allows the City of Mount Pleasant to purchase water diverted from Lake Bob Sandlin as authorized by ADJ 4564. The City of Mount Pleasant is authorized to divert up to 30,000 acre-feet of water for municipal purposes from a diversion point along the reservoir. The diversion point has a maximum diversion rate of 229 cubic feet per second (cfs) or 103,113 gallons per minute (gpm) or 7,500 acre-feet per month.

The original contract is dated October 6, 1972, and was last updated in 2018. Water diverted and used in this permit is used at the City of Mount Pleasant's Water Treatment Plant.

BACKGROUND

Investigation #1916854 was conducted by Ms. Camp in June 2023. No violations were noted.

INVESTIGATION FINDINGS

30 TAC 295.202 states that every person that takes water from a stream or reservoir during a calendar year is required to submit a written report to the TCEQ. The entity's Report of Water Usage was reviewed for 2024. The report was signed by Paul Reyes and dated January 17, 2025.

The Report of Water Usage for the Year Ending December 31, 2024, shows that 4,911.34 acre-feet of water were diverted for municipal use. The maximum diversion rate was 9,000 gpm. These values are in compliance with the permitted 30,000 acre-feet of water used at a maximum diversion rate of 103,113 gpm.

The Reports of Water Usage and water rights documents are attached to this report.

No Violations Associated to this Investigation
