--- Please respond above this line ---

Dear Kyle Moring,

We searched our records and didn't find any information that responds to your open records request.

We provided all communications to your previous request R028790. We have no other communications and SFMO has not conducted any inspections there as we are not the authority having jurisdiction.

We've closed your request. If you'd like to ask for other records, you can submit a new request online.

Reference number: R029523-061026
Date of your request: 6/10/2026 1:16:48 PM
Information you requested: Re: Renewed Texas Public Information Act Request – Correspondence with Mount Pleasant Fire Department and City of Mount Pleasant; Follow-Up to TDI Request #R028790-032526

Dear Public Information Coordinator:
On April 2, 2026, TDI responded to my prior request, TDI Request #R028790-032526, by stating that State Fire Marshal Case #2026-465 remained an open/active investigation and recommending that I submit a new request in 60–90 days. Because 60 days have now passed, I submit this renewed request under the Texas Public Information Act, Texas Government Code Chapter 552.
This is a separate request from my incident-specific request regarding the Jay-Tex Aviation fire.
I request copies of all correspondence created, sent, received, or maintained by the Texas Department of Insurance, including the State Fire Marshal's Office, from December 1, 2025 through June 10, 2026, between:

• Any employee, officer, investigator, agent, contractor, or representative of the Texas Department of Insurance or the State Fire Marshal's Office acting on State Fire Marshal matters.
• The Mount Pleasant Fire Department and/or the City of Mount Pleasant, Texas, including any city department, office, official, employee, agent, or representative.
For clarity, this request specifically seeks communications outside the scope of State Fire Marshal Case #2026-465. If a responsive record contains both information relating to Case #2026-465 and information outside that scope, I request release of all reasonably segregable non-exempt information.
For purposes of this request, "correspondence" includes, without limitation, emails, letters, text messages, instant messages, chat messages, memoranda, meeting invitations, calendar invitations, transmittal emails, telephone message records or call logs memorializing communications, and all attachments or enclosures.
This request is not limited to any particular subject matter outside Case #2026-465. It includes correspondence regarding inspections, code or life-safety issues, enforcement, complaints, site visits,

training, licensing, regulatory matters, incident response, referrals, records requests, and administrative matters.
Please include complete email chains and all attachments. Please also include records sufficient to identify the sender, recipient, date, time, subject line, and any metadata customarily maintained with the record. If responsive records exist in native electronic format, I request production in native format where reasonably available.
Please provide responsive records electronically by email or download link. If any portion of the requested information is withheld or redacted, please produce all reasonably segregable non-exempt information and identify the specific legal basis for each withholding or redaction. If you request an Attorney General ruling, please send me a copy of that request.

If estimated charges will exceed $40, please send me an itemized written estimate before incurring charges.

Respectfully,
Kyle Douglas Moring
