Josh,
Thank you for the guidance.

Obtain an asbestos survey prior to any renovation or demolition by a Texas licensed inspector. Once that is done remove asbestos prior to any renovation or demolition and file a notification. Whichever asbestos consultant you guys use can walk you through everything.

Thanks,

Josh Wyscarver-Smith
Asbestos Inspector, North
Texas Department of State Health Services
Environmental Group
Surveillance Unit
Cell: 512-924-6958
2521 W Front
Tyler Tx, 75702

Josh,
I went back to the city code enforcement office to ask for a copy of the asbestos abetment documentation that I was told they had, last time I visited with them. This time they said they did not have any documentation. I went to the Titus county courthouse and checked the publicly accessible records and did not find any documentation there, either. Considering this revelation, what steps do we need to take to satisfy any concerns from your department?
