Community

Demographic Profile of Surrounding Area (1-Mile Radius)

Select Demographic Profile Option

1-Mile Radius

This section provides demographic information regarding the community surrounding the facility. ECHO compliance data alone are not sufficient to determine whether violations at a particular facility may have a disproportionate impact on minority or low-income communities. Please see the Publications section of the ECHO website for more information. The data in this section are from the 2020 Census, American Community Survey, and Census Block Conversion files and are current. Census boundaries and demographic data for U.S. Territories are based on the "2020 Island Areas Demographic Profiles" from the U.S. Census Bureau. EPA's spatial processing methodology considers the overlap between the selected radii and ACS census block groups in determining the demographics surrounding the facility. For more detail about this methodology, see the EPA Data Dictionary.
