SELECTED PUBLIC RECORDS · FEBRUARY–JUNE 2026

Earlier requests for independent controls review

February 6 · Internal-controls audit request

Kyle Moring asked the Mayor and Council to authorize an independent investigation or comprehensive internal audit concerning two MPPD matters. The request described recurring process and documentation gaps and asked for review of record preservation, policy compliance and transparency controls.

> *“I respectfully ask the Council to treat this as a formal request for administrative review and internal controls assessment within the Council’s oversight authority.”*

May 12 · Audit-records and records-management escalation

In correspondence copied to the Mayor and Council, Moring disputed paper-copy charges for electronically available audit and Council records and asked the City to reconcile its printed-packet position with its CivicWeb/iCompass records and records-management obligations.

June 6 · TPIA production-controls review request

Moring renewed his request for a properly posted Council agenda item and an independent review after City counsel acknowledged that confidential information had been inadvertently released through the records process.

> *“I respectfully request that the Council direct an independent review of the City’s TPIA production controls, Regulatory Agency Correspondence production, post-release handling, and outside-counsel involvement.”*

Selected public reading copy. These are Moring’s requests for Council review, not findings by the City Council or the external financial auditor. Personal contact information and unrelated sensitive case details are omitted.
