KM

Ms. Yount,

Attached are my signed requestor comments dated September 18, 2026, and supporting Exhibits A–C concerning OAG reference OR-26-051837-RR and SHSU File No. 25-3848. The comments respond to the University's September 17, 2026 brief regarding the CRIMES records request.

I am providing the University this copy pursuant to Texas Government Code § 552.304(b). These comments do not withdraw or further narrow my outstanding request.

Please confirm receipt.

With gratitude,

Kyle Douglas Moring

Ms. Yount,

Thank you for your message. Responding to your questions:

1. No. I do not withdraw items 1, 2, 3, or 5 of my clarified request. I understand the University may seek a decision from the Office of the Attorney General concerning particular information it believes is excepted from disclosure, and I ask that it proceed through that process rather than treat those portions as withdrawn.
2. Yes. For item 4 only, I will accept a written statement from SHSU identifying each period during which the City of Mount Pleasant Police Department (ORI TX2250100) was a CRIMES licensee, including the beginning and ending year of each period and whether its participation is current. If SHSU's records contain more specific dates, please include them. This accommodation resolves item 4 only and does not alter the remaining items.

To further clarify and narrow my principal interest, I am particularly seeking existing records showing CRIMES's electronic data-export capabilities. Specifically, I seek records sufficient to show:

- Which call-detail, offense-report, incident, or dispatch information can be exported electronically;
- The available export formats, including whether the output is machine-readable or spreadsheet-compatible rather than limited to printing or static PDF;
- Whether CRIMES permits individual-record and/or batch or bulk exports; and
- The user-facing steps for initiating such an export.

I will accept relevant manual excerpts, help pages, screenshots, capability descriptions, training pages, or comparable existing records addressing those points. I do not need complete manuals if the pertinent excerpts provide this information.

For item 5, I continue to seek only the relevant excerpts describing audit logging, record-change history, or user-activity tracking. Item 3 remains limited to the current standard, form, or template license or participation agreement.

I am not seeking source code, passwords or credentials, encryption keys, network or security architecture, vulnerability information, or law-enforcement data stored in CRIMES.

If SHSU believes particular portions are excepted, please release all reasonably segregable responsive information not being withheld, request an Attorney General decision regarding the specific portions at issue, and provide me the notice and copy required by Government Code § 552.301(d).

With gratitude,

Kyle Douglas Moring
