KM

To Whom It May Concern,

I am following up regarding EPA FOIA Request No. 2026-EPA-00386 and the April 24, 2026 appeal determination in FOIA Appeal No. 2026-EPA-03851.

The appeal determination remanded the matter to EPA Region 6 for further processing and stated that Region 6 would contact me within 10 business days with an estimated date of completion. Based on the April 24, 2026 determination date, that 10-business-day period expired on May 8, 2026. Even if calculated from the April 27, 2026 transmittal email, the 10-business-day period expires today, May 11, 2026.

As of the time of this email, I have not received any follow-up communication from Region 6 regarding the remand, including:

- The current processing status of the remanded request
- The assigned analyst or office handling the supplemental search and review
- The estimated date of completion
- Whether Region 6 anticipates any rolling or supplemental production
- Whether Region 6 requires any clarification, narrowing, or other action from me to facilitate processing

Please provide a written status update and estimated date of completion no later than close of business on Wednesday, May 13, 2026. If additional searches, consultations, or reviews remain ongoing, please identify the current stage of processing and when I should expect the next substantive update.

For ease of reference, I have attached the April 24, 2026 appeal determination letter and the April 27, 2026 transmittal email. Ms. Left, HQ FOIA, and Ms. Bradford are copied for awareness and continuity because this matter was remanded following the appeal determination and prior communications regarding this request.

If this matter has been reassigned or should be directed to a different Region 6 contact, please forward this message to the appropriate person and copy me on that correspondence.

Thank you for your attention to this matter. Please confirm receipt of this email.

Sincerely,

Kyle Douglas Moring
