RF

Good Afternoon Kyle Moring,

Thank you for contacting our office. I will follow up with the program office to provide you with the latest status of your request. Thank you for your patience. Have a great day.

Respectfully,

Nicole Robinson
Regional FOIA Officer
Office of Regional Counsel
U.S. EPA Region 6, FOIA & Water Law Branch
1201 Elm Street, Suite 500
Dallas, Texas 75270-2102 (ORC-FW)
(214) 665-8335

Subject: FOIA Request No. 2026-EPA-02223 – Overdue Interim Production and Request for Updated Status / ECD

You don't often get email from [redacted] Learn why this is important

Caution: This email originated from outside EPA, please exercise additional caution when deciding whether to open attachments or click on provided links.

Dear Ms. Robinson,

I am the requester for FOIA Request No. 2026-EPA-02223, which EPA received on January 9, 2026.

As of today, Monday, May 11, 2026, the only documents I have received in response to this request are:

1. EPA Region 6's February 27, 2026 First Interim Response letter

2. One 22-page records production that appears to consist of RCRAInfo site-profile records, hazardous waste manifests, and Land Disposal Restriction notification forms for Walmart Supercenter #131 / EPA ID TXR000015057

EPA Region 6's February 27, 2026 letter stated that EPA was providing a "first interim release," that "EPA Region 6 continues its search and/or review for potentially responsive records," and that "[t]his is not a final response." The letter also stated: "The next target date for a release of records is April 3, 20206," which I understand to have

The letter also stated: "The next target date for a release of records is April 3, 20206," which I understand to have been intended as April 3, 2026.

I have not received any additional interim production, revised target date, explanation for the missed target date, or final response letter. Please provide a written status update and current estimated completion date pursuant to 5 U.S.C. § 552(a)(7)(B), including the following:

1. Confirmation that Request No. 2026-EPA-02223 remains open and active
2. Confirmation whether EPA has posted or released any additional records that I may not have received or been able to access
3. The current estimated date for the next interim production
4. The current estimated date for EPA's final response
5. The EPA offices, programs, regions, or components that have completed their searches
6. The EPA offices, programs, regions, or components whose searches or reviews remain outstanding
7. Whether any records are currently pending search, review, consultation, referral, disclosure review, or upload to PAL
8. The estimated volume of remaining responsive records, if known
9. Whether EPA intends to continue making rolling interim productions

Because the only production I have received appears limited to RCRAInfo/manifest/LDR records for Walmart Supercenter #131, please specifically confirm the status of EPA's search and review for the remaining categories in the request, including:

1. Clean Air Act Section 608/refrigerant-management records
2. NESHAP/asbestos notifications and certifications
3. RCRA records beyond the limited manifest/LDR records already produced
4. Voluntary-program participation records
5. Compliance self-certifications
6. Prior EPA enforcement history records
7. Walmart Store #131-specific NESHAP, refrigerant-management, inspection, and compliance-determination records

This email is a request for status information and an updated estimated completion date. It is not a new FOIA request, not a withdrawal, not a narrowing of the request, and not an administrative appeal. I understand from EPA's February 27 letter that the response is not final and that appeal-rights information will be provided when the request is closed.

If EPA believes that targeted sequencing or narrowing would materially expedite production, please identify the specific categories, offices, or record sets causing delay so I can evaluate that issue without unintentionally excluding responsive records.

Please provide the requested status update by Monday, May 18, 2026.

Sincerely,

Kyle Douglas Moring
