KM

Ms. Robinson,

I received Region 6's final response stating no responsive records were located for FOIA 2026-EPA-02222. Before and/or in connection with my administrative appeal, could you please confirm which offices and record systems were searched, the date ranges used, and the search terms/custodians applied?

My request includes an October 2023 EPA "Finding of Violation" against Walmart Inc. regarding Clean Air Act issues related to refrigeration leak-detection/repair programs, which Walmart has publicly disclosed. If those records are maintained by another EPA component (e.g., headquarters enforcement offices or a different region), please advise whether Region 6 can refer/transfer the request or whether EPA recommends I direct the appeal/record search to a specific office.

With gratitude,

Kyle Moring
