October 27, 2025: three rows matching TCEQ-listed numbers

Two rows originate from the City fax number and use a number listed for TCEQ occupational-licensing fax service. A third row originates from a number listed for a TCEQ watermaster contact. All five source columns are retained.

Reading limits

Directory-number matches do not authenticate the caller, prove a connection, establish a number’s assignment on the 2025 event date, or reveal purpose or content. These are not established environmental-enforcement contacts. Original-dialed and terminating numbers are distinct source columns; the leading 1 is preserved. The source timestamps are shown without an asserted timezone. This selection does not publish or clear the rest of either workbook.
