Ms. Dillon,

To follow up on our earlier conversation, please follow up on the below items:

- Roof leaks were observed coming into the store after a rainstorm on August 20, 2025 (after the completion of the roof replacement). Please verify that the roofing contractor or someone else was contacted to address the leaks and if they have been completed.
- Confirm whether or not associates at store #131 have been trained (whether through web based or in person) on the company's heat illness program.

If you have any questions or need clarification, feel free to contact me.
