Ms. Webster,

Thank you for producing the file titled "Call log.csv."

Because a CSV does not contain reliable creator or transmission metadata, please produce the original email by which Peoples Communications/GoPeoples transmitted these call logs to the City.

Please produce that email in its native Microsoft Outlook .msg format, with the original call-log attachment embedded and intact, including the original:

- Sender, recipient, CC, and BCC information maintained with the message.
- Sent and received timestamps.
- Subject line and message headers.
- Attachment filename, file type, size, and metadata.
- Message body, file links, download links, and related transmittal information.
- Any preceding or subsequent messages contained in the same vendor email thread.

Please do not convert the email to PDF, forward it as a newly created message, provide a screenshot, or detach and resave the attachment. I am requesting the original Outlook message item as maintained by the City, with the file Peoples actually transmitted remaining attached.

If Peoples transmitted the records through more than one email, please produce each responsive message in native .msg format. If the file was delivered through a portal or file-sharing link rather than as an email attachment, please produce the native .msg transmittal or download-notification message, together with the original file exactly as downloaded.

This specific record should establish whether "Call log.csv" is the same file Peoples delivered to the City. It is also directly responsive to my June 17, 2026 request for the City's native telecom-vendor correspondence, transmittals, attachments, and file-delivery records.

Please preserve the original vendor message, attachment, email thread, file link, and all associated electronic metadata.

Mayor and Council Members, I am copying you for notice only. I am not asking any member to reply all, deliberate, or discuss this matter by email.

With gratitude,

Kyle Moring

Mr. Moring,
Please call 903-575-4000 and speak with Courtenay to make your payment. Once payment has been confirmed, I will send you the information.

Pursuant to Texas Government Code § 552.275(d), the City provides the following information regarding personnel time: Time spent complying with this request: 1 hour. Cumulative personnel time spent responding to your public information requests during the current fiscal year period: 34.5 hours. The City has established a limit of 36 hours of personnel time per fiscal year for a requestor.
Once this limit is reached, the City is required to provide a written cost estimate and may charge for subsequent requests as permitted by law.

Thank you,
Candias Webster, TRMC, CMC
Assistant City Manager/ City Secretary
City of Mt. Pleasant
Office: 903-575-4000

Subject: TPIA Request – Native Format Call Logs, May 31, 2026–July 24, 2026

Ms. Webster,

Pursuant to the Texas Public Information Act, Texas Government Code Chapter 552, I request the following public information:

Please produce the City-managed telephone call-detail records, CDR logs, PBX logs, vendor call logs, administrative-portal exports, billing call-detail records, or equivalent telephone metadata records maintained by or available from Peoples Communications/GoPeoples for the period:

May 31, 2026 through July 24, 2026, inclusive.

This request covers all City-managed telephone numbers, extensions, direct-dial numbers, group numbers, auto-attendants, call queues, ring groups, department lines, and other City telephone assets maintained through the City's telecommunications provider, including Police, Fire, City Hall, City Manager, City Secretary, Public Works, Utilities, Water Billing, Building & Code, Animal Control, Airport, Library, Civic Center, Municipal Court, Water Treatment, Wastewater, and all other City departments.

This request is for telephone metadata/call-log records only. It does not request call recordings, voicemail audio, voicemail content, or the substance of any call.

Please produce the records in the **native spreadsheet/export format provided by Peoples Communications/GoPeoples**, including all original tabs, columns, fields, sheet names, export structure, timestamps, and metadata fields provided by the vendor. Please do **not** convert the records to PDF, screenshots, pasted text, or a reformatted spreadsheet. Please provide the actual Excel, CSV, or native structured export file generated by Peoples.

If Peoples provides the export in multiple files, please produce all files as provided. Please identify the beginning and ending date/time, time zone, source system, report/export type, and date/time of export for each file.

If any responsive information is withheld or redacted, please identify the specific legal basis for each withholding or redaction. If the City contends that no responsive records exist for any City-managed line or department, please state that clearly in writing and identify the systems, provider portal, accounts, date parameters, and records searched.

If the estimated cost exceeds $40.00, please provide the written itemized estimate required by Texas Government Code § 552.2615 before work begins. I consent to rolling or partial production.

Please preserve all potentially responsive CDR, PBX, vendor call-log, billing call-detail, administrative portal, export, and telecom-provider records while this request is pending.

Please confirm receipt and provide any tracking or reference number assigned.

With gratitude,

Kyle Moring
