Mr. Moring,
With as many items as we have, we will be sticking strictly to specifically what you are requesting from the city and what exist, what we can give. This will not be a platform for grievances against the city or all of the employees in it, It will be to address what you need. This will be to document your request in a public forum. When you step up to the podium, I will need your name and the city or county you reside in so we can make this as complete as possible.

Mayor

Subject: Agenda Item 25 – Presentation Logistics for March 17 Meeting

Mayor Lyon,

I wanted to acknowledge your decision to place Agenda Item 25 on tomorrow night's City Council agenda. Allowing these concerns to be addressed in an open and formal setting is important, and I do not take that opportunity lightly.

During my discussion of Agenda Item 25, I plan to reference a PowerPoint presentation to help organize the information and exhibits that have already been submitted to the Council. I wanted to ask the best way to handle that from a logistics standpoint. Would you prefer that I coordinate the presentation through City staff, or should I just plan to bring the file on a USB drive to the meeting? If it would be helpful, I can also provide the presentation in advance once I know the preferred process.

I recognize this may not have been the easiest course, and I respect your willingness to allow the matter to be addressed publicly.

A quote from Brené Brown that has stayed with me feels particularly relevant here:

"Integrity is choosing courage over comfort; it's choosing what's right over what's fun, fast, or easy; and it's practicing your values, not just professing them."

That quote resonates with me in this situation, and I believe it reflects the responsibility of both elected officials and of citizens to continue showing up and addressing difficult issues openly and honestly.

I look forward to tomorrow evening's discussion.

With gratitude,

Kyle Moring

There won't be any power points. If you would like a digital list of what you want from the city, in a very short question form or item form then you can email the city secretary, and we will have it ready for your agenda item. Any other communications please work through the city employees.

Regards

Mayor

Mr. Moring,

To clarify, you are able to present the items on agenda item 25 as you see fit, but given the length of the agenda, time will not be unlimited.

As the Chair of the meeting, I will need to consider the time available for you to speak and for council to discuss and consider your concerns regarding city processes under the TPIA and permits/inspections, the City's efforts to respond to your concerns and requests, and the City's meeting with you.

Please be mindful that what you present has to fall within this agenda item. If you think the best use of your time is a power point presentation, please coordinate with Ms. Webster, but be mindful of timing.

Additionally, or alternatively, you can provide whatever written materials you would like Council to review for its consideration.

Regards,
Mayor Lyon
