SELECTED PUBLIC RECORDS · JUNE–JULY 2026

Resolution 2023-1 response and Guaranty production

June 22 response annotations

The City's returned copy of the request marked Items 1, 2, 3, 6 and 7 "Attached to email." It marked Item 4, seeking records bearing Candias Webster's signature or identifying her in listed financial-account roles, and Item 5, seeking Guaranty Bank records naming or bearing her signature, "No information related to this request."

What the attached records showed

The records supplied under Item 6 include LOGIC, TexPool and Texas Range documents bearing Webster's signature and/or identifying her as an authorized representative or account contact. Resolution 2025-11, which expressly names Webster as a Guaranty Bank signatory, was not included in that production.

January 25, 2023 Guaranty transmittal

The City produced a rendered copy of Webster's January 25 email transmitting "Resolution 2023-1.pdf" to Guaranty Bank & Trust and stating that the resolution was passed January 17 "to add Laurie Mays to all accounts." The request had asked for native email with attachments and metadata where available. The message was supplied as a flattened PDF rather than an .eml or .msg file with full headers and the original attachment intact.

July 7 closure

> *"The City's position is that all responsive records located during the City's original search of records within its possession, custody, or control were provided on June 22, 2026, and no additional responsive records have been identified."*

Selected public reading copy based on the City's June 22 response, the produced account-authority records, the June 23 supplementation request and the City's July 7 closure response. This copy identifies the reconciliation issues without publishing account numbers or access credentials.
